WORK EXPERIENCE

Netcamp Solutions Pvt. Ltd.*Chhattisgarh, IN*
Technology & Security Intern Oct 2025 – Nov 2025

- Built and maintained dynamic web pages using HTML, CSS, PHP, and MySQL as part of a live full-stack project.
- Assisted in configuring local server environments using WampServer and debugging database queries.
- Gained practical exposure to network security fundamentals, including basic firewall rules and secure data handling.
- Collaborated with senior developers to understand system architecture and complete assigned feature modules on schedule.
- [Add any specific feature you built or system you worked on here]

AI Fast Track Intern –AGNIRVA AI Nov 2025

- Completed a 100+ hour intensive deep-dive into Artificial Intelligence, focusing on solving real-world problems through emerging technologies

PROJECTS

Course Management System | PHP · MySQL · HTML/CSS · JavaScript | [Github](#)

Full-stack web application

- Designed and developed a multi-role web application allowing admins to manage courses, enrolments, and student records.

Automated Attendance & Analytics System | Python · MySQL · HTML/CSS | [Github](#)

College operations tool

- Built an automated attendance tracking system with real-time analytics dashboard for faculty and admin use.
- Generated attendance reports and trend visualizations to help staff identify low-attendance patterns.
- [Add GitHub link] | [Add tech detail — e.g., integrated with Google Sheets API / CSV export]

Vittora AI | Python · JavaScript · HTML/CSS | [Github](#)

AI Interview Analysis | Python · JavaScript · HTML/CSS | [Github](#)

CERTIFICATIONS & COURSES

Workshop on Networking Fundamentals- PyNetLabs | CERTIFICATE

Complete E-Commerce Course -Udemy

Introduction to Artificial Intelligence -Infosys Springboard

Adobe Illustrator course for Graphics Design -udemy

ACCOMPLISHMENT

Internal Smart India Hackathon 2025 -

Tech4Impact : Participated in the Internal Smart India Hackathon 2025. His team developed an Automated Attendance & Analytics System that marked the attendance automatically by detecting the faces of the student.

TECHSPRINT 2K26 Hackathon :

- **Vittora AI**: Participated in the **TECHSPRINT 2K26 Hackathon** organized by GDG AUC. His team developed an AI- powered personal finance tracker that categorizes transactions and predicts future expenses.
